## Getting More Circuits

As members lists are reviewed a frequent comment from members is that they desire more circuits. To get more circuits each of us has an important roles to play.

- OMs are encouraged to send as many circuits as possible. We have many OMs who send at least 40 circuits each month.
- To encourage OMs in their efforts it is important to recognize their efforts. This includes when possible sending an email tracking when you received and forwarded their circuits.
- Promptly forwarding circuits yields more circuits. Please send circuits on to the next member as soon as possible. If a circuit sits on your desk for a month you are depriving other members of their circuits.
- Let OMs (and myself as MD) know what you want to receive. Use the form 10 to specify which countries are on you "want list." Collecting interest will be on the monthly list to OMs as soon as you send your interests to me.

Your suggestions about how to make CCCC better are always welcome. Tell your friends and fellow collectors about CCCC. More members means more circuits and more fun.
