Going in Circles?

Circuits are odd critters. They come in many shapes, but all circle back to their Originating Member. We hope they circle back because it frustrates OMs when circuits never return.

Circuits are built in many ways. Some OMs maintain a limited list of faithful correspondents. I always encourage them to add some new names. Some OMs set circuits of

members who share a topical interest such as flowers or railways. So listing your collecting interest may bring you more circuits.

I think that most OMs build circuits based on the countries named when they receive form 10 request forms. That depends both on OMs remembering to send the forms with their circuits and every member using them to show their interests.

I build my circuits mostly by linking requests. That means that by and large the next member after you is someone who specifically wants your cover. That way everyone gets what they want. I probably do it that way because I have been a "country collector" ever since at age eight I wanted to have at least one stamp from every country in my first little stamp album. That's still true now 65 years later.

Have a good year collecting what thrills you.
