Meet a member

By Jeff Hayward

The Washington 2006 World Philatelic Exhibition was a great opportunity for CCCC members to meet each other. The reality is that sometimes all we really know about each other comes from the covers we send, our collecting interests, and where we are from.

As I mentioned in the first newsletter, the newsletter has been created to better serve and inform CCCC members. If you would like to introduce yourself to members of the CCCC please send me a short note and I will include it in the newsletter. Do you have a favorite cover you have received from a fellow member? Please send me a copy or a scan and it

can be shared with members here.

Are there local stamp clubs, shows, or fairs you plan on attending? We can include the show information here and maybe CCCC members could plan to meet each other.

The CCCC circuits have plenty of free space to send messages to others on the circuit. Take a moment and tell others about your collecting interests and about yourself if you like.

Doing any of the above may result not only in a nice cover but maybe a new philatelic friend!

mation* 2

CCCC members request more circuits

By Jeff Hayward

Renate in the main office has received many requests from CMs in some Eastern European and Asian countries that do not seem to be receiving a significant number of circuits from OMs or from other CMs via Form 10s.

We ask that all OMs and CMs please include members from these areas in their circuits and on Form 10s. Our members in countries that are not

often sought after should not only have the opportunity to receive covers but we should all welcome the truly wonderful covers that these CMs would like to send us in return.

So the next time you prepare a circuit or fill out a Form 10 consider adding a member from Poland, India, Romania, Bangladesh or other countries in Eastern Europe and Asia.
